

# Echosmith - We're Not Alone

Tom: Db  
Intro: Gb Db Ab

Verso:  
Ooh, this don't feel right  
In fact, it feels like things are escalating  
Just last night  
I heard talks of a new beginning

Pre-Refrão:  
And this is getting out of hand  
And I'm sure you understand  
That we can't stay

Refrão:  
Tonight we'll dream to a better cause  
Stand straight for the crooked ones  
We'll set out and see how far we'll go  
And we'll live life in a different light  
Steadfast through the darkest night  
Keep our heads up and eyes fixed on the road  
We're not alone, we're not alone  
We're not alone, we're not alone

Verso:  
Since we've been gone  
It's getting harder for us to remember  
Where we're from  
'Cause since we left things are moving faster

Pre-Chorus  
And now we're closer to the sky  
When we see the sun rise

We'll be on our way

Refrão:  
Tonight we'll dream to a better cause  
Stand straight for the crooked ones  
We'll set out and see how far we'll go  
And we'll live life in a different light  
Steadfast through the darkest night  
Keep our heads up and eyes fixed on the road  
We're not alone, we're not alone  
We're not alone, we're not alone

Ponte:  
Oh, keep it up  
It's only getting better  
Oh, carry on  
And just remember to  
Oh, keep your head up now  
And lift your feet off ground

Refrão:  
Tonight we'll dream to a better cause  
Stand straight for the crooked ones  
We'll set out and see how far we'll go  
And we'll live life in a different light  
Steadfast through the darkest night  
Keep our heads up and eyes fixed on the road  
We're not alone, we're not alone  
We're not alone, we're not alone  
We're not alone, we're not alone
