

Ed Bruce - After All

tom:

A
[Primeira Parte]

A There's a parking lot A where the corner cafe stood
 G One of the places we first fell in love
 Bm They've built a waterslide, on the bluff by the riverside
 G Where we first fumbled our way into love
 A And you hardly ever hear it, it's a golden oldie now
 G But you and I danced to it at least a thousand miles
 Bm We ran with Bobby and his wife, her name I can't recall
 G But we had lots of fun and love, hardly anything else at aa
 A A All the things we knew
 G Are turning brown and grey with age or gone

Bm It's funny how the years slip by, I can't help but wonder
 why
 G Sometimes it doesn't seem that long

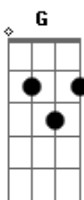

[Refrão]

A After all these years, after all the
 G Joy and tears, after all is said and done
 Bm After most of everything we knew is gone
 E I still love you
 A After all these yeeears, after all the
 G Joy and tears, after all is said and done
 Bm After most of everything we knew is gone
 E I still love you
