

# Ed Bruce - Nights

tom:

C

Nights are the loneliest part of the day  
 That's when your memory comes around and gets me down  
 Nights, there's a star for every tear  
 That's fallen from my eye oh how I cried  
 Onlys nights alone thinking back to you and I  
 It's nights I know I never should've said goodbye  
 Nights are the loneliest part of the day  
 That's when your memory comes around and gets me down
