

Ed Motta - The Caretaker

Tom: G

Help me build moon
 This evening
 Night will be here
 Too soon
 If there's no moon
 In the sky well
 Angels won't see
 No light
 Hit the ground

And soon
 There's angels
 Crashing down

Around the town
 My job

Is to make sure
 They don't
 Heavens caretaker

I'm sweeping up

Another night

Don't let them
 Be complaining

Say now
 I didn't see

Go let'em know
 I'm starting

build That moon
 Make that light

Shine it out

But there's one way

To make moon melody

It's true
 A silver spoon

And kiss or two

I'll buy a kiss now

Don't be scared
 This night

Will chose you

Heard your voice

Knew it was

The new you in me

I need to know

Steal your soul

Don't be scared

I'm just
 Heavens caretaker

Sweeping up the night

Help me build moon
 This evening
 Time it won't let us be
 Don't ask
 For no understanding
 They don't know
 You won't know
 I don't know

Your you in me
 Makes the moon melody
 Come true
 If you just
 Sell your kiss
 It starts
 The caretaker
 Trying to light
 Another night

Acordes
