

# Ed Sheeran - American Town

tom:

C

[Primeira Parte]

We're a long way from home  
 Haven't seen you in so long  
 But it all came back in one moment  
 And the year started cold  
 But I didn't notice at all  
 And when we found there's a room we're both in

[Pré-Refrão]

We get Chinese food in small white boxes  
 Live the life we saw in Friends  
 Your room, it barely fits the mattress  
 Wake up, leave for work again  
 The wind, it seems to blow right through us  
 Down jackets are the trend  
 The rush, we're rushing deep into love

[Refrão]

English girl in an American town  
 No elevator to the fifth floor  
 I'll ring on the buzzer, then you'll be right down  
 I wish time would freeze  
 Dungarees over the hoodie, we're out  
 Feet are three feet off the ground  
 Lost in love and we don't wanna be found  
 It's just you and me  
 My English girl in an American town  
 In an American town

[Segunda Parte]

Days come and go  
 But it ends windows closed  
 And the scent of your perfume's on me  
 You're useless with your phone  
 Electric when one-on-one  
 I thought I would be more nervous, darlin'

[Pré-Refrão]

We watch comedies and miss the endings

Conversations till the dawn

And your changin' tide, we push against it  
 Challenge meanings in the songs  
 And head out without a reservation  
 Drinkin' out of paper bags  
 And wasting time is time not wasted

[Refrão]

For my English girl in an American town  
 No elevator to the fifth floor  
 I'll ring on the buzzer, then you'll be right down  
 I wish time would freeze  
 Dungarees over the hoodie, we're out  
 Feet are three feet off the ground  
 Lost in love and we don't wanna be found  
 It's just you and me  
 My English girl in an American town

[Ponte]

And when our eyes are closed together, I can't explain  
 How the scent of your perfume takes me to a higher place  
 We can watch it unfold or we can change how it takes  
 And we build when it breaks down

[Pré-Refrão]

We drink Moscow Mules and steal the cups  
 From, mostly the Bowery bar  
 What a perfect day to fall in love on  
 What a way to make a start  
 And it appears, when you think all is lost  
 Then, you don't remember when it started

Never have to pretend

[Refrão]

With my English girl in an American town  
 No elevator to the fifth floor  
 I'll ring on the buzzer, then you'll be right down  
 I wish time would freeze  
 Dungarees over the hoodie, we're out  
 Feet are three feet off the ground  
 Lost in love and we don't wanna be found  
 It's just you and me
