

# Ed Sheeran - Amsterdam (Sweet Mary Jane)

tom:  
 Capostraste na 1ª casa

I woke up early looking out my window  
 At the Amsterdam sky

Oh baby I was high last night  
 Cafe clouds and red lights

When I gotcha in mind  
 You slowed down time

Oh baby I was out of my mind  
 Sing a song cover and hold me tight

I draw you deep into my chest  
 That's where it feels the best

You can remove all the scars  
 Stop them from breaking my heart

Been on a hurting spree  
 That brought out the worst in me

?Cause I don't want to be alone  
 ?Cause everyday that I'm breathing I think you are the one

I love the way that your sweet words just roll off of my tongue  
 Feel the flame of your wisdom and fill up my lungs

Sweet Mary Jane won't you sing me another song  
 Café clouds and shooting stars are floating across the sky

Oh baby what a beautiful sight  
 But we're only satellites

Oh di le di ba oh la lights  
 Oh baby I am so damn high

Have you seen my eyes  
 With every beat of my heart

You take me back to the start

Where everything began  
 Holding you inside my hands  
 Between my fingers and thumb  
 I seal you in with my tongue  
 ?Cause I don't want to be alone

?Cause everyday that I'm breathing I think you are the one  
 I love the way that your sweet words just roll off of my tongue

Feel the flame of your wisdom and fill up my lungs  
 Sweet Mary Jane won't you sing me another song

Na na na na na Sweet Mary Jane  
 Na na na na na Sweet Mary Jane  
 Na na na na na Sweet Mary Jane  
 Na na na na na Sing another song

Mary Jane  
 I've been hoping alone  
 Mary Jane

Since you came along  
 Mary Jane  
 I'm almost home  
 Mary Jane

Sing another song  
 ?Cause everyday that I'm breathing I think you are the one  
 I love the way that your sweet words just roll off of my tongue

Feel the flame of your wisdom and fill up my lungs  
 Sweet Mary Jane won't you sing me another song

?Cause everyday that I'm breathing I think you are the one  
 I love the way that your sweet words just roll off of my tongue

Feel the flame of your wisdom and fill up my lungs  
 Sweet Mary Jane won't you sing me another song
