

# Ed Sheeran - Celestial

tom:

**D**  
[Primeira Parte]

**G** You see tonight  
**Bm**  
It could go either way  
**D** Hearts balanced on a razorblade  
**G** We are designed to love and break  
**D** And to rinse and repeat it all again  
**A**

[Pré-Refrão]

**G** I get stuck and the  
**Bm** World's too loud  
**D** And things don't look up  
**A** When you're going down  
**G** I know your arms are  
**Bm** Reaching out from  
**D** Somewhere beyond the clouds  
**A**

[Refrão]

**G** You make me feel  
**Bm** Like my troubled heart  
**D** Is a million miles away  
**A**  
**G** You make me feel  
**Bm** Like I'm drunk on stars  
**D** And we're dancing out in the space

[Segunda Parte]

**G** You see the light shining  
**Bm**  
Through the rain  
**D** A thousand colors  
**A**  
In a brighter shade  
**G**  
Needed to rise  
**Bm**  
From the lowest place  
**D**  
There's a silver lining  
**A**  
That surrounds the gray

[Pré-Refrão]

**G** And I get lost  
**Bm**  
Will it come back 'round?  
**D**  
Things don't look up

**A**  
When you're going down  
**G**  
I know your arms  
**Bm**  
They are reaching out from
