

# Ed Sheeran - Swim good (Cover - Frank Ocean)

Tom: C  
Intro: 2x: Am G Em F

That's a pretty big trunk on my Lincoln town car, ain't it?  
Big enough to take these broken hearts and put 'em in it  
Now I'm driving 'round on the boulevard trunk bleeding  
And every time the cops pull me over  
They don't ever see them, they never see them

And I've got this black suit on  
Rollin' around like I'm ready for a fune-ral  
Five more miles till the road runs out

I'm about to drive in the ocean  
Imma try to swim from something bigger than me  
So take off my shoes and swim good and swim good  
Take off this suit and swim good and swim good

Am G Em F  
Mmm, mmm

That's some pretty big beats on my 808cc beatin'  
Memory seats that I'm sittin' on stay heated  
I tried to put tints on my windows, but what's the difference?  
When I feel like a ghost, no Shwayze  
Ever since I lost my baby

And I've got this black suit on  
Rollin' around like I'm ready for a fune-ral  
One more mile till the road runs out

I'm about to drive in the ocean  
Imma try to swim from something bigger than me  
So take off my shoes and swim good and swim good  
Take off this suit and swim good and swim good

I'm going off, don't try 'n stop me

I'm going off, don't try saving  
No flares, no vest, no fear  
Waves are washing me

I, I'm about to drive in the ocean  
Imma try to swim from something bigger than me  
So take off my shoes and swim good and swim good  
Take off this suit and swim good and swim good

I, I'm about to drive in the ocean  
Imma try to swim from something bigger than me yeah  
So take off my shoes and swim good and swim good  
-soft fading strums-  
Ammute  
Take off this suit and swim good and swim good, swim good, mmm
