

Ed Sheeran - Sycamore

tom:

C

[Primeira Parte]

F

Sycamore in the summer

Bearing leaves

Swing, you're pushing

Our daughter underneath

Flowers bloom in the garden

Swayin breeze

Just imagine a world where

We could be

[Pré-Refrão 1]

Am

Right now in the waiting room

Emotions running wild

Worried 'bout my lover

And I'm worried 'bout our child

Part of me was always in denial

It's gonna take a little while

[Refrão 1]

But in our story, love in, love out
We are glorious

But in our story, love in, love out
We are glorious

[Segunda Parte]

F

Sycamore bringing shade

From beating sun

Nothing more than a word

A smoking gun

A smoking gun

What a puzzle is this to be in love

To be planting your roots

Then dig them up

[Pré-Refrão 2]

Waiting on professionals

To tell you how it is

What's he gonna say after

"I think you better sit"

Brace yourself

Something's about to hit

It's gonna take a little while

[Refrão 2]

But in our story
Love in, love out

We are glorious

But in our story
Love in, love out

We are glorious

But in our story
Love in, love out

We are glorious

But in our story
Love in, love out

We are glorious

But in our story
Love in, love out

We are glorious

We are glorious

Sycamore in the field

A lonely tree

Darling, what will become

Of you and me?
