

# Ed Sheeran - The Man

Tom: D

(com acordes na forma de Capotraste na 2ª casa ( Em Am G F ) C )

Now I don't want to hate you  
 Just wish you'd never gone for the man  
 And waited two weeks at least  
 Before you let him take you  
 I stayed true  
 I kind of knew you liked the dude from private school  
 He's waiting for the time to move  
 I knew he had his eyes on you  
 He's not the right guy for you  
 Don't hate me cos I write the truth  
 No I would never lie to you  
 But it was never fine to lose you  
 And what a way to find out  
 It never came from my mouth  
 You never changed your mind  
 But you were just afraid to find out  
 But f- it, I won't be changing the subject I love it  
 I'll make your little secret public its nothing  
 I'm just disgusted with the skeletons you sleep with  
 In your closet to get back at me  
 Trapped and I'm lacking sleep  
 Fact is you're mad at me because I backtrack so casually  
 You're practically my family  
 If we married then I'll guess you'd have to be  
 But tragically our love just lost the will to live  
 But would I kill to give it one more shot  
 I think not  
 I don't love you baby  
 I don't need you baby  
 I don't want you no  
 Any-more  
 I don't love you baby  
 I don't need you baby  
 I don't want you no  
 Any-more  
 Recently I tend to zone out

Up in my headphones to Holocene  
 You promised your body but I'm away so much  
 I stay more celibate than in a monastery  
 Im not cut out for life on the road  
 Cos I didn't know I'd miss you this much  
 And at the time we'd just go, so sue me  
 I guess I'm not the man that you need  
 Ever since you went to uni  
 I've been sofa surfing with a rucksack  
 Full of less cash and I guess that could get bad  
 But when I broke the industry that's when I broke your heart  
 I was supposed to chart and celebrate  
 But good things are over fast  
 I know it was hard to deal with and see this  
 I tend to turn you off and switch on my professional features  
 Then I turn the music off  
 And all I'm left with is to pick up my personal pieces, Jesus  
 I never really want to believe this  
 Got advice from my dad and he  
 Told me that family is all I'll ever have and need  
 I guess I'm unaware of it  
 Success is nothing if you have no one left to share it with  
 I don't love you baby  
 I don't need you baby  
 I don't want you no  
 Any-more  
 I don't love you baby  
 I don't need you baby  
 I don't want you no  
 Any-more  
 And since you left I've given up my days off  
 It's what I need to stay strong  
 I know you have a day job But mine is 24/7  
 I fell like writing a book I guess I lied in the hook  
 Cos I still love you and I need you by my side if I could  
 The irony is if my career and music didn't exist  
 In six years yeah you'd probably be my wife with a kid  
 I'm frightened to think if I depend on cider and drink

And lighting a spliff I fall into a spiral and it's  
 Just hiding my misguiding thoughts that I'm trying to kill  
 And I'd be writing my will before I'm 27  
 I'll die from a thrill Go down in history as just a wasted talent  
 Can I face the challenge Or did I make a mistake erasing  
 It's only therapy My thoughts just get ahead of me  
 Eventually I'll be fine I know that it was never meant to be  
 Either way I guess I'm not prepared  
 But I'll say this:  
 These things happen for a reason and you can't change  
 Take my apology I'm sorry for the honesty

But I had to get this off my chest  
 I don't love you baby  
 I don't need you baby  
 I don't want you no  
 Any-more  
 I don't love you baby  
 I don't need you baby  
 I don't want you no  
 Any-more  
 ( Em Am G F )
