

Ed Sheeran - Toughest

tom:
 Eb (forma dos acordes no tom de C)
 Capostraste na 3ª casa

[Primeira Parte]

I don't know what to think
 The word cut through the day
 The doctor said it's cancer
 And the baby's on the way
 Life changes in a blink
 Decisions to be made
 They say radio's the answer
 And that both lives can be saved

[Pré-Refrão]

Points for timing
 It could not get worse
 What the hell are we going to do?
 But you're the type
 To defeat the hardest obstacles
 Put in front of you

[Refrão]

You are the toughest in the room
 And I know that love will get us through
 And life will overcome the pain
 That grows in you
 'Cause you are the toughest in the room
 You showed me strength I never knew
 When love is on our side
 There's just no way to lose
 But I still can't help but break down

(C F C G)

[Segunda Parte]

Still waiting on a call
 Then an action plan is made
 In the middle of a court case
 Shows what really matters, babe
 The specialists in North

Acordes

En route we'll chose our child's name
 'Cause we've had enough surprises
 For a lifetime, wouldn't you say?

[Pré-Refrão]

The word he said
 It had the upmost power to
 Change the world to blue
 But you're the type
 To defeat the hardest obstacles
 Put in front of you

[Refrão]

You are the toughest in the room
 And I know that love will get us through
 And life will overcome the pain
 That grows in you
 'Cause you are the toughest in the room
 You showed me strength I never knew
 When love is on our side
 There's just no way to lose
 But I still can't help but break down

[Ponte]

All night long
 Tossing and turning
 And begging
 Please hold on

[Refrão]

You are the toughest in the room
 And I know that love will get us through
 And life will overcome the pain
 That grows in you
 'Cause you are the toughest in the room
 You showed me strength I never knew
 When love is on our side
 There's just no way to lose
 But I still can't help but break down
