

Ed Sheeran - Wake Me Up

Tom: A

(com acordes na forma de Capostrate na 2ª casa G)

I should ink my skin
 With your name
 And take my passport out again
 And just replace it
 See i could do without a tan
 On my left hand, where my fourth finger meets my knuckle
 And i should run you a hot bath
 And fill it up with bubbles
 Cos maybe you're loveable
 And maybe you're my snowflake
 And your eyes turn from green to gray and in the winter i'll
 Hold you in a cold place
 And you should never cut your hair
 Cos i love the way you flick it off your shoulder mmm
 And you will never know just how beautiful you are to me
 But maybe im just in love when you wake me up
 would you ever feel guilty if you did the same to me.
 would you make me a cup of tea, to open my eyes in the right way?
 and i know you love shrek, cause we have watched it 12 times
 but, maybe you're hoping for a fairy tale too, but if
 Your dvd breaks today,

You should have got a vcr, because i'm never on blueray on tuesday.
 And ive always been shit at computer games, and your brother always beats me,
 And if i lost, id go across, then id chuck all the
 Controllers at the tv, then you'd laugh at me and be
 Asking me, if i'm gonna be home next week,
 And youd lie with me, until i fall asleep
 And flutter eyelash on my cheek through the sheets
 And you will never know,
 Just how beautiful you are to me,
 But maybe im just in love when you wake me up
 and i think you hate the smell of smoke,
 You always try get me to stop,
 But you drink as much as me, and i get drunk a lot,
 So i take you to the beach, and walk along the sand,
 And i'll make you a heart pendant, with a pebble held in my hand
 And i'll carve it like a necklace, so the heart falls where your chest is
 And now a piece of me, is a piece of the beach, and it falls just where it needs to be,
 And rests peacefully
 You just need to breathe, to feel my heart against yours now, against yours now.
 But maybe im just in love when you wake me up. x2
 Maybe i'll fell in love, when you woke me up
