[Primeira Parte]

So hold on if you want  
 I don't wanna play this, no  
 I don't have the patience  
 And last year was a long one  
 And these days are reruns  
 A fine time for a breakdown  
 Find words to tear these walls down  
 And I threw them all away  
 If I start then I probably won't stop  
 'Cause the world moves on and the lights stay on  
 For the next one, and next one, it's an ocean  
 No, I don't wanna waste forever  
 But I can if I want to  
 There's so much that can change my mind  
 So much of me has changed, how could I ever feel the same?

[Refrão]

So dive in, to my home  
 It's all I have, woah

So drive me, 'till the shore  
 Spoken like a real life savior  
 NASCAR, we're just racing in circles again

[Segunda Parte]

Bleed out, it's a cold night  
 City views killed the starlight  
 Sleeping at the wheel for the first time  
 It's terrifying when you wake up  
 A few years later it's a new time  
 Hard to see how it stands from the inside  
 Inside, it's tried if it's tiring

You then, leave

[Refrão]

So dive in, to my home  
 It's all I have, woah  
 So drive me, 'till the shore  
 Spoken like a real life savior

NASCAR, we're ju
