

Eden - End Credits

Tom: G

Cm
Cigarette ash like wildfire

Ab
Burning holes in the nighttime

Ab
Open scars cut like barbed wire
White lies flying high like a ceasefire

Cm
Dropping flags on the shoreline

Ab
This is as far as I can feel right

Ab
'Cos what you don't know
Can haunt you

Cm
And all we ever wanted

Eb
Was sunlight and honesty

Ab
Highlights to want to repeat
Let's get away from here and

Cm
Live like the movies do

Eb Ab
I won't mind when it's over
At least I didn't think for a while

Cm
So let's run
Make a great escape

Eb
And I'll be waiting outside for the getaway

Ab
It doesn't matter who we are

Ab
We'll keep running through the dark

Cm
And all we'll ever need is another day

Eb
We can slow down 'cos tomorrow is a mile away

Ab
And live like shooting stars

Ab
'Cos happy endings are just a phase

Cm
Sunsets on power lines

Ab
Making a break for the other side

Ab
Heading out to where that sunshine
45 millimeter rolling like we lost time

Cm
Polaroids and outcast

Ab
Rather burn out young than grow up fast

Ab
And we could be forever future-bound
'Cos all I need is time and now and I could leave this past
behind me

Cm
And all we ever wanted

Eb
Was sunlight and honesty

Ab
Highlights to want to repeat

I want to let you go

But I just can't bring myself to speak

Cm
But this is how it goes

Cm
The end credits they roll

Eb Ab
This bridge was built over kerosene
But we can watch it
