If I were free

I would run into battles with flowers and hugs

And bow at the boots of our well-oiled thugs

Yes, if I were free

C G Am F
If it were me

I would yell out I love you to all I passed

I would disrobe and disco and rip off my mask

Yes, if I were free I'd be the U that crossed the I to simply be

Minding our reflections at the bottom of the sea

What did you see?

C G Am
I saw that you and I forever have been free

The light became too heavy and I fell into a dream

What did you dream?

(C G Am F C Am C Am F G Am)

C G Am F
I dreamed a wind that would sweep

Every castle made of sand

Out across the old far holy land

Oh, if this were free

C G Am F
If this were free

We'd be free of the terror of the graves

And fear masquerading as the brave

Oh, if this were free

C G Am

C G Am
I woke upon a pig of red, white and blue

The circus got too heavy so we fell into the zoo

What did you feel?

C G Am
I felt the fear that every queer does in his head

First thing to starting over, I made sure I was dead

What do you dream?

(F Am G E7 Am C E7)

C G Am
Swimming with ancients, laughing, tired of getting lost

We took our left, remember, when we leaned upon the cross

What did you see?

C G Am
I saw that you and I forever have been free

The light became too heavy and we fell into a dream

(C G Am)
