Eels - I Like Birds

Tom: G

    Tabbed by: Joe

Email:

Tuning: EADGBe standard

This is a well easy song to play, it's just this bit all the way through, but a
second guitar backs it up with E & D. I play it by making the D shape but on the
4th fret then moving down to the regular D then playing the D2. I've
played it with the record and it's in tune, so I'm pretty sure it's correct.

```
E:     022100
D:     x00232
D2: x00220
Intro: /verse          x2
```

                    I Can't look at the...

Chorus
   E   D   E   D

Here's the lyrics

I can't look at the rocket launch
The trophy wives of the astronauts
And I won't listen to their words
'Cause I like
Birds

I don't care for walkin' down town

Crazy auto car gonna mow me down
Look at all the people like cows in a herd
Well I like
Birds

If you're small
And on a search
I've got a feeder for you to perch on

I can't stand in line at the store
The mean little people are such a bore
But it's all right if you act like a turd
'Cause I like
Birds

If you're small
And on a search
I've got a feeder for you to perch on

If you're small
And on a search
I've got a feeder for you to perch on
I've got a feeder for you to perch on
If you're small
And on a search
I've got a feeder for you to perch on
I've got a feeder for you to perch on

Anyways, I hope this helps you on your quest 2 play this, Have a nice day!
