

Ego Kill Talent - We All

Tom: C

I'll meet you there
 And won't matter if you won
 So get some rest
 We don't need most things we want
 Kings and crowns fade out in time
 We're going down a long way to nowhere
 And there's no finish line
 Bleeding out searching for something
 It was here all the time
 I'll meet you there
 Yeah I'll meet you anyway
 We'll all be there, we'll all meet there my friend
 We couldn't care less

About the problems that hold
 We'll all be there, we'll all meet there my friend
 We're going down a long way to nowhere
 And there's no finish line
 Bleeding out searching for something
 It was here all the time
 I'm so glad we met, so glad
 We're going down a long way to nowhere
 And there's no finish line
 Bleeding out searching for something
 It was here all the time with you
 We're fading out, we're fading out
 We're fading out, we all fade out
 We're fading out, we're fading out
 We're fading out, we all
