Intro: G D Em A A

Enquanto eu ví a lua mergulhar  
 Na aurora em que eu estava a te esperar  
 O orvalho inundou o meu sorriso  
 De cores e perfumes deste altar

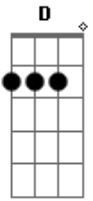

Que é primavera  
 Que inicia o beija-flor  
 Na arte mais doce  
 De encontrar o néctar

E eu sempre soube  
 Que pra eu me banhar  
 Tanto faz o azul  
 Do céu ou do mar  
 A paixão nos prendeu de tal maneira  
 E a fera que andava afoita pelos campos  
 Achou de vir morar nos corações  
 Que seja agora o florir da nossa história  
 Mesmo que ninguém nos veja  
 Num beijo terno atrás da igreja  
 Sempre que eu viver eu vou te amar
