

Elevation - Shine a Light

Tom: C

Waking up to another life
 No more sorrow and no more night
 You're the light
 Let it shine now, let it shine now
 Burning bright cause we're not ashamed
 Got a world to illuminate You're the light
 Let it shine now, let it shine now
CHORUS
 Nothing can stand against us
 Our praise will break the darkness
 We declare, Your kingdom's here
 Because our God is for us

We're living in the promise
 We declare, Your kingdom's here
 Shadows fade as you now arise?
 Hope is here with no end in sight? You're the light
 Let it shine now, let it shine now You're the light
 Let it shine now, let it shine now
BRIDGE
 Shine a light, shine a light Shine a light,
 shine a light
 We've got a light and we're gonna shine
 Jesus let your name be glorified
 We've got a light and we're gonna shine
 Forever let your name be glorified
