Elita - Sober

Tom: G
Intro: Dm A

```
          Dm                    G7
I guess you think I want you back
         Bb
Even after all of that
                      C
I've been to hell and back
                 Bb
But I'd do it for you
                      C
After all you put me through

              Dm
You fog up my brain
                Eb
You make me insane
                    F
I know that you're bad
          G
Driving me mad

          Bb                       C
Choking me out til I can't catch my breath
               Bb                   C
I think that's just one of the side effects
               Dm              F
When I'm with you I float on a cloud
```

```
                            G
But you cover my mouth and leave my legs bound
                   Dm                    F
I'm scared that I gave you all of the control
              G
I can't get up
I've dug myself into a hole

              Dm                          A
Choking me out til I can't catch my breath
                F                       G
I think that's just one of the side effects
                       Bb               C
Tell me to give in everything is a lie
                       Bb               C
Only thoughts I have are of suicide

( Dm  Eb  F  G )

                            Bb
Even after all of that
                            C
I've been to hell and back
                      Bb
But I'd do it for you
                            C
After all you put me through
```
