

Elixir Inc - Too Late

Tom: G

Seems like yesterday
I tried to keep in daze
My head was burning all my time was crazy
I wonder if its too late
The promise that we've made
My whole existence was about to die young
Hey, I wanna make a change
A little help my friend
Some hand in time can make my day shine brighter
A simple plan in pain
Some crazy written things
Come back to life to say I'm sorry
You can hide! you can try to survive. but the truth
Waste of time! don't you live in disguise color blue
Oh Yeah
I've always felt so confident
Never want to complicate

It's always the same old story everytime ow my
It's never been so hard to take
It's like head exploding everyday
I felt like everything was said and done
[Solo] C G D
You can hide! you can try to survive but the truth
Waste of time! don't you live in disguise color blue
Chains to break! bittersweet is my pain with you
Dreams to chase! come and feel you're alive
It's not always too late!
It's not always too late!
It's not always too late!
Too late!
It's not always too late!
