

## **Eliza Doolittle - Rollerblades**

```
Intro: C Em Gm Fm
                   Em
I know you say you're ready to change
                 Fm
But I need to get it down on paper
                      Em
It's in your face you're ready to blame
                    Fm
The first guy in line to catch the train
             Am
I'll save your seat,
                        Fm
'Cause you don't stand for what you preach.
Pefrão:
                 Em
Your Singing with a broken string tell me what you really
Do you know what you want
While beating up on yesterday,
```
