

Ellie Goulding - I'll Hold My Breath

Tom: Eb

(com acordes na forma de Capotraste na 3ª casa C)

Breathe air you're not used to, tread floors you don't fall through
 Make waves...
 You crash a symbol hard Follow no one, always play the wrong card
 Waste days, in foreign places
 Shed lights, on your better side
 Reassure me that you'll wait for me, wait for me as long as it takes!
 And I'll hold my breath, I'll hold my breath

Until you see me in your dreams
 We'll stay awake beneath the trees
 We'll watch the buildings turn to dust
 A sky of diamonds just for us
 You are the risk I'll always take
 The only branch I'll never break
 Those fears we'll blow them all way, we'll blow them all away
 Fight fires in your best clothes, touch skin with your eyes closed
 Chase thunder with the volume down
 Pack a suitcase, wonder to the next town
 Force quit, on your losing streak

Solve a riddle in a magazine, be tongue in cheek
 Tell me that we're still too young,
 that we're still too young and I'll hold my tongue
 Until you see me in your dreams
 We'll stay awake beneath the trees
 We'll watch the buildings turn to dust
 A sky of diamonds just for us
 You are the risk I'll always take
 The only branch I'll never break
 Those fears we'll blow them all way, we'll blow them all away
 I'm here, I'm here to save you
 No fall, I will swim to save you
 I'm here, I'm here to save you
 No fall, I will swim to save you
 Until you see me in your dreams
 We'll stay awake beneath the trees
 We'll watch the buildings turn to dust
 A sky of diamonds just for us
 You are the risk I'll always take
 The only branch I'll never break
 Those fears we'll blow them all way, we'll blow them all away
