

# Ellie Goulding - I'll Hold My Breath

Tom: Eb

(com acordes na forma de Capostrate na 3ª casa C )

Breathe air you're not used to, tread floors you don't fall through  
 Make waves...  
 You crash a symbol hard Follow no one, always play the wrong card  
 Waste days, in foreign places  
 Shed lights, on your better side  
 Reassure me that you'll wait for me, wait for me as long as it takes!  
 And I'll hold my breath, I'll hold my breath

Until you see me in your dreams  
 We'll stay awake beneath the trees  
 We'll watch the buildings turn to dust  
 A sky of diamonds just for us  
 You are the risk I'll always take  
 The only branch I'll never break  
 Those fears we'll blow them all way, we'll blow them all away  
 Fight fires in your best clothes, touch skin with your eyes closed  
 Chase thunder with the volume down  
 Pack a suitcase, wonder to the next town  
 Force quit, on your losing streak

Solve a riddle in a magazine, be tongue in cheek  
 Tell me that we're still too young,  
 that we're still too young and I'll hold my tongue  
 Until you see me in your dreams  
 We'll stay awake beneath the trees  
 We'll watch the buildings turn to dust  
 A sky of diamonds just for us  
 You are the risk I'll always take  
 The only branch I'll never break  
 Those fears we'll blow them all way, we'll blow them all away  
 I'm here, I'm here to save you  
 No fall, I will swim to save you  
 I'm here, I'm here to save you  
 No fall, I will swim to save you  
 Until you see me in your dreams  
 We'll stay awake beneath the trees  
 We'll watch the buildings turn to dust  
 A sky of diamonds just for us  
 You are the risk I'll always take  
 The only branch I'll never break  
 Those fears we'll blow them all way, we'll blow them all away
