

ellise - 911

tom:
 Capotraste na 1ª casa

9-1-1 what's your emergency?

[Primeira Parte]

Don't think I can take it
 With every drama a piece of me dies
 Like some kind of sadist
 I think that he likes to see the pain in my eyes
 He knows that I'm lovesick
 He kissed me and promised I will be alright
 We both know it's bullshit
 The longer I'm with him the less I'm alive

[Pré-Refrão]

Doctor's on the other line
 'Cause he's not coming home tonight
 And I just took my very last pill
 Need something to numb the pain
 Demons knocking on my brain
 I think they coming in for the kill

[Refrão]

Nine one wanna need some
 While my baby plays me like a game
 I'm not having fun
 Nine one want to leave him

Why my heart is always aching
 And I gotta be done 'cause
 I, I, I gotta lose my guy
 Oh I, I'm, I'm gonna lose my mind

[Segunda Parte]

You must think that I'm crazy
 Well he does too so I guess that makes three?
 Need someone to save me
 I'd really appreciate if you'd intervene

[Pré-Refrão]

Doctor's on the other line
 'Cause he's not coming home tonight
 Can't seem to find my bottle or pills
 Swear to God I'm not insane
 The voices only say his name
 When i'm starting to think that they're real

[Refrão]

Nine one wanna need some (need some)
 While my baby plays me like a game
 I'm not having fun (not having fun)
 Nine one want to leave him
 Why my heart is always aching
 And I gotta be done 'cause
 I, I, I gotta lose my guy
 Oh I, I'm, I'm gonna lose my mind
