

## Elton John - Crocodile Rock / Get Back / Back In The U.S.S.R.

Jo-jo left his home in Tucson, Arizona

```
tom:
                                                                    For some California grass
                 G (forma dos acordes no tom de A )
                 Afinação: D G C F A D
                                                                    Get back, get back
I remember when rock was young
        Dbm
Me and Susie had so much fun
                                                                    Back to where you once belonged
                                                                    Get back, get back
Holding hands and skimming stones
Had an old gold Chevy, and a place of my own
                                                                    Back to where you once belonged
But the biggest kick I ever got
                                                                    We're back in the U.S.S.R
Was doing a thing called the Crocodile Rock
                                                                    You don't know how lucky we are, boys
                                                                                    D
While the other kids were rocking 'round the clock
                                                                    Back in the U.S.S.R, boy
We were hopping and bopping
                                                                    Back in the U.S
To the Crocodile Rock, well
                                                                    Back in the U.S
                                                                    Back in the U.S.S.R
Crock rocking is something shocking
                                                                                         G D G
                                                                                    D
When your feet just can't keep still
                                                                    Back in the U.S.S.R
I never knew me a better time
                                                                    Sweet Loretta Martin thought she was a woman
And I guess I never will
                                                                    But she was another man
Oh, Lawdy mama, those Friday nights
                                                                    All the people around her said she had it coming
When Suzie wore her dresses tight and
                                                                    But she gets it while she can
  The Crocodile rocking was out of sight
                                                                    Get back, get back
Laa, la-la-la-laa
                                                                    Back to where you once belonged
La-la-la-laa
                                                                    Get back, get back
La-la-la-laa
                                                                    Back to where you once belonged
Laa, la-la-la-laa
                                                                    We're back in the U.S.S.R
La-la-la-laa
                                                                    You don't know how lucky we are, boys
             Е
La-la-la-laa
                                                                    Back in the U.S
Jo-jo was a man who thought he was a loner
                                                                    Back in the U.S
But he knew it couldn't last
                                                                    Back in the U.S.S.R
Acordes
      G
                                                                            Dbn
                                                                                    ukulele-chords.com
