

# Elton John - Dark Diamond

Tom: **Db**  
Intro: **Bbm Gb Ab** (OCTAVES: **Ab Ab Bb Db Eb** )

**Bbm Gb**  
Oh, I'm a dark diamond  
**Ab Db Fm**  
I've turned hard and cold  
**Bbm Ebm7 Ab** (OCTAVES: **Ab Ab Bb Db Eb** )  
Once was a jewel with fire in my soul  
**Bbm Gb**  
There's two sides of a mirror  
**Ab Db Fm**  
One I couldn't break through  
**Bbm Ebm7 Fm**  
Stayed trapped on the inside, wound up losing you

**Db**  
Tell me how does it work  
**Db Db Gb**  
How do you make things fit  
**Fm Bbm**  
Spent all my life trying to get it right  
**Ebm7 Ab**  
I've put it together and it falls apart  
**Db Db Db Gb**  
I thought to myself I might understand  
**Fm**  
But when the wall's built  
**Bbm Ebm7**

And the heart hardens  
**Ab** (**Db Bbm Ebm7 Ab** )  
You get a dark diamond  
(**Bbm Gb Ebm7 Ab** )  
Dark diamond  
Oh, I'm a dark diamond  
But you're something else  
You read me more than I read myself  
The one star I could count on  
Only comet I could trust  
You burnt through my life to the true meaning of love

(CHORUS)  
**Bbm Gb Ab Db Fm**  
**Bbm Ebm7 Fm**

(CHORUS)  
**Ab** (**Db Bbm Ebm7 Ab** )  
You get a dark diamond  
(**Bbm Gb Ebm7 Ab** )  
Dark diamond  
(REPEAT, FADE )

Stevie Wonder's harmonica solo:
