

Elton John - Tell Me Where The Whistle Blows

Tom: C
Intro: Dm7

Dm7
There's a dusty old gutter he's lying in now
He's blind and he's old
And there's a **G** bottle that **A** rolls down the **Dm7** road
Me I'm young and I'm so wild
And I still feel the need
Of your **G** apron strings once in a **A** while **Bm**
A
For there's taxi cabs hooting
E **G7** **Dm7**
But I can't be foot-loose forever
A
My suitcase it's a cheap one
E
My darling she's a dear one
G7 **C**
My head's feeling light as a feather
G7 **D** **Dm7**

Take my ears and tell me when the whistle blows
G7 **D** **Dm7**
Wake me up and tell me when the whistle blows
D **A**
Long lost and lonely boy
Bm **G**
you're just a black sheep going home
D **A** **G7**
I want to feel your wheels of steel
D **A** **G7**
Underneath my itching heels
D
Take my money
G **A** **Bm** **Dm7**
Tell me when the whistle blows
Part of me asked the young man for the time
With a cool vacant stare of undue concern
He said nine
It's not so bad but I really do love the land
And rather all this than those diamante lovers
In Hyde Park holding hands
Blowing heat through my fingers
Trying to kill off this cold
Will the street kids remember
Can I still shoot a fast cue
Has this country kid still got his soul

Acordes
