

Elvis Presley - Give Me The Right

Tom: C

Give me the right
To hold you tonight
The tears that Ive cried over you
Give me the right
You cant say no
When I need you so
I want you back in my arms
Give me the right
If you looked deep in your heart

Like I looked into mine
Youll find that nothing has changed
Our love was there all the time
Why make me plead
For something you need
I want to bring back the thrill
Give me the right
Why make me plead
For something you need
I want to bring back the thrill
Give me the right..
