E||---------------------------|---------------------------||
H=hammer on
            A
    As the snow flies
         Dbm
    On a cold and gray Chicago mornin'
      D                 E
A poor little baby child is born
            A
    In the ghetto
             A
    And his mama cries
               Dbm
    'Cause if there's one thing that she don't need
         D                 E
    It's another hungry mouth to feed
            A
    In the ghetto
                      E
    People, don't you understand
                      D       A
    The child needs a helping hand
       D                    E                      A
    Or he'll grow to be an angry young man some day
                     E
    Take a look at you and me
                D        A
    Are we too blind to see
       D              Dbm
    Or do we simply turn our heads
        Bm              E
    And look the other way
            A
    Well the world turns
                  Dbm
    And a hungry little boy with a runny nose
                D                    E
    Plays in the street as the cold wind blows
                A
    In the ghetto
                A
    And his hunger burns
                Dbm
    So he starts to roam the streets at night
                D
    And he learns how to steal
                E
    And he learns how to fight
                A
    In the ghetto
                E
    And then one night in desperation
      D                  A
A young man breaks away
           D            Dbm
    He buys a gun, steals a car
    Bm                      E
    Tries to run, but he don't get far
                A
    And his mama cries
                Dbm
    As a crowd gathers 'round an angry young man
                D                              E
    Face down on the street with a gun in his hand
                A
    In the ghetto
                A
    As her young man dies
                Dbm
    On a cold and gray Chicago mornin'
                D              E
    Another little baby child is born
                A
    In the ghetto
```
