

Elvis Presley - Tender Feeling

tom:

Intro: D C D C

I can't conceal the tender feeling

Now that you are close to me

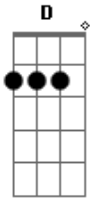

I look at you with tender feeling

And can't help but kiss you tenderly

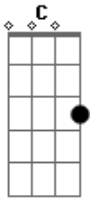

(D C D C)

All life through my love I vow

For this is real, this sweet emotion

This tender feeling I have now

Somehow I knew from the moment our lips first met

You'd be the girl I could never forget

No other love could be appealing

I loved you right from the start

And with each kiss I'll keep revealing

The tender feeling in my heart
