

Elvis Presley - There's Always Me

Tom: C

(intro) Dm G

When the evening shadows fall

And you're wondering who to call,

For a little company there's always me.

If your great romance should end,

And you're lonesome for a friend,

C Fm C

Darling, your need never be, there's always me.

I don't seem to mind somehow playing second fiddle now,

Someday you'll want me dear, and when that day is here.

Within my arms you'll come to know,

Other loves may come and go,

But my love for you will be eternally,

Look around and you will see there's always me.
