Tom: E
Intro: E A x2
Hey, hey

[Verse]

E Well sometimes I get lonely A
E And some days you don't know me A
B Dbm A And to try explain why I'll be gone by morning
B Dbm A Is like expecting spring to understand the autumn
E B A So come on, let's stop wasting all our energy
E B A Let's stop wasting summer on our knees
B Dbm A And don't lie to me, I know you felt the changes
B Dbm A And nothing's new, it's been this blue for ages
E A So baby, I'm outta here
E A Baby, I'm outta here
E A Sometimes I get lonely

E A And I wish you'd just hold me
B Dbm A And to try explain why some days hurt more than others
B Dbm A Is like asking rain to sing above the thunder
E B A So come on, let's stop wasting all our energy
E B A Let's stop wasting summer on our knees
B Dbm A And don't lie to me, I know you felt the changes
B Dbm A And nothing's new, it's been this blue for ages
E A So baby, I'm outta here
E A Baby, I'm outta here
B Dbm A And don't lie to me, I know you felt the changes
B Dbm A And nothing's new, it's been this blue for ages
E A Sometimes I get lonely
