

Emily King - Distance

Tom: G

Hey love time to get up
 I think you've been sleeping too long
 My day started when you were still yawning

One room just ain't enough
 When it's two folks trying to get along but it's hard to leave you alone

Oh love is always better
 When we take time to get back to who we are when we are apart
 Distance makes the heart grow
 Even when I'm lonely I'm happy knowing that your love is never far

When we are apart distance makes the heart
 It makes the leaves on the trees fall
 It makes the hours in the day long
 Makes me wanna clear my head

Find a little cafe and write the words to a song
 And I know that I'm still free
 Be anywhere that I wanna be
 Maybe get dressed up
 Wear something real pretty that you ain't never seen

Oh love is always better
 When we take time to get back to who we are when we are apart
 Distance makes the heart grow
 Even when I'm lonely I'm happy knowing that your love is never far
 When we are apart distance makes the

When you love it makes the heart
 When you trust it makes the heart
 When you call it makes the heart
 When we're alone when we're apart
 In the middle of a fight
 Walk away to make it right

Where we go we're never far
 In the light or in the dark
 On a plane up in the stars
 In a movie or at the bar
 Home alone or out to tea
 Look to your heart and think of me

I wanna love you don't wanna try
 To change the pace of your life
 We get together we make it good
 We get together oh oh oh

Hey love time to get up
 I think you've been sleeping too long
 My day started when you were still yawning
