

Emin - Got Me Good

Tom: D

m

I don't wanna wake up
 Not knowing where you sleep tonight
 The things that you told me
 Made it so hard to read your mind
 Wish you at least could be honest
 I wish that you told me the truth
 But you keep complaining
 And every time that you go

You got me so good
 You really got me, so blue
 You got me thinking 'bout you
 And I do

You really got me
 You really got me
 You really got me good
 You always keep changin'
 Every conversation makes a
 But I just can't help it

When keep calling out for more
 Wish you at least said let's break up
 I wish you could say how you feel
 But you keep complaining
 And every time that you go
 You got me so good
 You really got me, so blue
 You got me thinking 'bout you
 And I do
 You really got me
 You really got me
 You really got me good
 You really got me good
 You got me so good
 You really got me, so blue
 You got me thinking 'bout you
 And I do
 You really got me
 You really got me
 You really got me good
 You really got me good
