

Emmylou Harris - Gold

Tom: G

Oh the night is growing colder
 And the stars have lost their shine
 And I have been forsaken
 By everything I thought was mine
 For in the darkest hour
 When the final story's told
 No matter how bright I glitter baby
 I could never be gold
 You gave up your finest treasures
 For the one you saw in me
 But how could I know the measure
 Of all you needed me to be
 Though I came with sweet intentions
 More my pockets could not hold
 No matter how bright I glitter baby
 I could never be gold
 I finally gave up counting

The ways you said I let you down
 When I fell into that river of no return
 And you watched me drown
 Oh I can sparkle like a diamond
 Have silver line my soul
 No matter how bright I glitter baby
 I could never be gold
 (D G C G D G)
 You look so high and low for heaven
 I tried so hard to show the way
 But though I flew on wings of angels
 My feet were always made of clay
 I could come trailing clouds of glory
 But you saw nothing to behold
 No matter how bright I glitter baby
 I could never be gold
 No matter how bright I glitter baby
 I could never be gold
