

## **Epica - This Is The Time**

```
We have lost
                                                       Bb
                       tom:
                                                    We're out of control
                                                       Bb Cadd9
        D
                   Cadd9
                                                    If we're straight can we hear nature's call
This is the time
                                                       Bb
 Bb
                                                    When we fail nature speaks to us all
We waited too long
D Cadd9
And I'm wondering
                                                    This is the time
                                                              Cadd9
Bb
Where I belong
                                                    So what's the world to be
D Cadd9
                                                     Bb
We have lost
                                                    Just a luxury
                                                        Cadd9 D
Bb
                                                    A temporary sing?
Cadd9
We're out of control
 Bb
When we fail nature speaks to us all
                                                    But what have we got
                                                     Cadd9
                                                    When is gone away?
This is the time
                                                     Cadd9
    Cadd9
                                                    We need to come to see
I'll tell you why
                                                     Bb

                                                    What the Earth should be: a santuary free

D Cadd9
                                                    All that we sacrified
Now's the time
                                                    In the end has it's price
