No jardim da adolescência

Primavera do viver

Adornada de inocência

Hoje vem se enfiorecer

Com botão de formosura

Que em seu desabrochar

Plenifica de ternura

Quem eu queira contemplar

Espargindo alegria

Tu enfrentas este dia

Com perfume e a candura

Da mais linda flor

E uma vida com louvor

Tu entregas com amor

Ao Pai Criador

Se entregas teu viver

Ao bondoso Deus de Amor

Ele cuidará de Ti

Conservar-te-á linda flor

Tirárá ervas daninhas

Que te impedem de crescer

E em meio às lindas flores

Para sempre vais viver

Desabrocharás feliz

Lá no perenal país

Onde as flores sempre ternas

Nunca mur_cha_rão

A presença de Jesus

Trará gozo, Paz e Luz

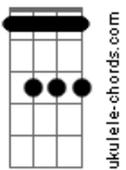

Ao teu coração
