In the rolling night

In the stardust of a pale moonlight  
I think of you in black and white  
Am E  
when we were made of dreams

I walked alone through the shady streets  
Listening to my heart beat  
In the record breaking heat  
Am E  
When we were born in time

E B A E  
Just when I thought you were gone You came back  
E B E  
Just when I was ready to receive you

You were smooth you were rough  
A E  
You were more than enough  
E Gbm B  
Ahh baby why did I ever believe you  
A  
I believe you

E  
In the rising curse

And the wings of nature will test every worth

I took you close and I felt the reason  
Gbm
