[Primeira Parte]

Now my friend Bill was just a working lad  
And he liked to have his fun  
He'd like to find a girl and get comfortable  
When his working day was done  
He would spend all his money on a Friday night  
Wake up in the morning broke  
But he had a run in with little Lucy then  
Believe me that ain't no joke

[Refrão]

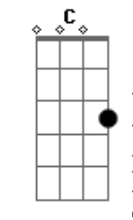

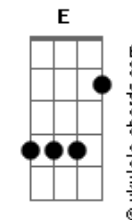

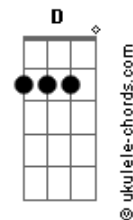

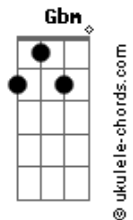

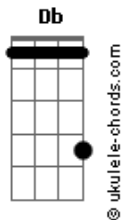

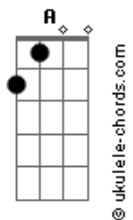

Watch out for Lucy  
Though she may look frail  
Say excuse me, Lucy  
Darling don't you use me  
I don't want to land in jail

She started out working in a cafe  
Picking money up on the side  
She was free and easy, everybody's friend  
But she couldn't be satisfied  
So now in walks Bill with his cash in his hand  
His heart upon his sleeve  
We tried to warn him about her ways  
We never did succeed

[Refrão]

Well, the trap was sprung for poor old Bill  
You should have heard little Lucy sing  
"I want a Cadillac car, a beautiful home  
And a thousand dollar ring."  
They found our hero in the gutter  
With a diamond ring and a gun  
He'd done it for the love of Lucy  
And ended up on the run

[Refrão]
