

# Eric Nam - Love Die Young

tom:  
Capostrate na 4ª casa

B (forma dos acordes no tom de G )

What happens when it's over  
When we've breathed our last breath  
And we've loved each other to death  
Can you tell me what happens?

G  
I wonder where the love goes  
When pleasure turns to pain  
When the memories fade away  
Can you tell me what happens?

G D  
Flowers in your hair now on our grave  
A little bit of pressure's all it takes  
Shoulda known we'd shatter that we'd break, break

G D  
Maybe I'm the one that we should blame  
For never thinking we'd end up this way  
I don't need answers, I need you to stay  
Stay

G  
Please don't let this love die young  
Please don't let this love die young  
If I'm gonna lose someone  
Don't let it be you

G D  
Please don't let this love die young  
Please don't let this love die young  
If I'm gonna love someone  
Then let it be you

G  
In my dreams we're growing older  
But I wake up to the truth  
That I'm scared we're gonna lose  
Tell me it won't happen

So before it's really over  
Can we have a little faith  
Baby say it ain't too late  
It's all that I'm asking

G D  
Maybe I'm the one that we should blame  
For never thinking we'd end up this way  
I don't need answers, I need you to stay  
Stay

G D  
Please don't let this love die young  
Please don't let this love die young  
If I'm gonna lose someone  
Don't let it be you

G D  
Please don't let this love die young  
Please don't let this love die young  
If I'm gonna love someone  
Then let it be you

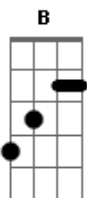

G D  
Please don't let it die  
Please don't let it die  
Please don't let it die young

G D  
Flowers in your hair now on our grave  
A little bit of pressure's all it takes  
Shoulda known we'd shatter that we'd break

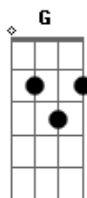

G D  
Please don't let this love die young  
Please don't let this love die young  
If I'm gonna lose someone  
Don't let it be you

G D  
Please don't let this love die young  
Please don't let this love die young  
If I'm gonna love someone  
Then let it be you
