 Intro: D G D G

We're defended by our heroes  
 From sea to shining sea  
 Fighting for our freedom  
 Looking out for you and me  
 We think of all you gave us  
 How you were there to save us so we'd see  
 You risked your life so we could all live free

But our heroes never die  
 Your spirit fills the sky  
 Your presence truly blessed us from the start  
 You will never truly vanish from our hearts  
 No, you'll never truly vanish from our hearts

We're defended by our heroes  
 He stood among the best  
 Protecting us from evil,  
 You rose above the rest  
 And though we could see through you  
 It seems we hardly knew you, we confess

Thanks to what you've done  
 We've all been blessed  
 But our heroes never die  
 Your spirit fills the sky  
 Your presence truly blessed us from the start  
 You will never truly vanish from our hearts

And though my soul is aching  
 Deep inside my heart is breaking  
 Nothing is the same since you've been gone  
 No, I don't think I can take it  
 I don't know how I make it  
 When I'm beaten up and think I can't go on  
 But then I think of all you gave us  
 And I realize that you've saved us  
 The power of your memory will grow strong

?Cause our heroes never die  
 Your spirit fills the sky  
 Your presence truly blessed us from the start  
 You will never truly vanish from our hearts  
 You will never truly vanish from our hearts
