tom:

Intro: A G

A
Tell me a line
Make it easy for me
Open your arms
Dance with me until I feel alright D
A
It's good in the dark
Good in the dark
But into the lover's light
D
Here comes another fight
A
So ring the alarm
Ring the alarm
Bar me and hold me and cling to my arm
D
Here it comes
Here it comes
A
And what you're asking me now
Disastrous now
D
Hoping and hoping and hoping the feeling goes away
A
Never change, never change, never change, never change
Never change, never change, never change
D
This is why I fell in love
A
Never change, never change, never change, never change
Never change, never change, never change
D
That's just who I fell in love with
A
This is the time
The very best time
So give me a line
D
And take me home
Take me over
A
But dashing the hopes
Dashing the hopes
And smashing the pride

D

The morning's got you on the ropes
A
And love is a murderer
Love is a murderer
But if she calls you tonight
D
Everything is alright
Yeah, we know
A
And love is a curse
Shoved in a hearse
Love is an open book to a verse
D
Of your bad poetry
And this is coming from me
A
But I can change, I can change, I can change, I can change
I can change, I can change, I can change
D
If it helps you fall in love
A
I can change, I can change, I can change, I can change
I can change, I can change, I can change
D
If it helps you feel real love
A
Turn on the light
Make it easy for me
Fill the divide
D
Fumble in the kitchen 'til it's right
What an awful sight
A
But there's love in your eyes
Love in your eyes
Love in your eyes
D
But maybe that's just what your lover finds
All night
A
I can change, I can change, I can change, I can change
I can change, I can change, I can change
D
If it helps you fall in love
A
I can change, I can change, I can change, I can change
I can change, I can change, I can change
D
If it helps you fall in love A
