

Esteban - Smokers In Airplanes

Tom: F

Intro: G F

I'm lost by your faith

I guess this is over

Take my gun away

'Cause I don't wanna die anymore

Speak for yourself

If you need attention

Don't think you're gonna change the world you live

By singing "la la la la"

La la la la lalalala (2x)

I'm tryin' to awake without nightmares and lovers

But the voice inside my head is just singing "la la la la la"

La la la la lalalala (2x)

Help! You can save me now (2x)

I'm locked in these chains

And time is running over

Just give me the keys 'cause we don't need to fight like before

The present is future that already pass

And old melodies are the only things that last

La la la la lalalala

Help! You can save me now (2x)

Help me! Save me now!

Somehow we can make it loud

I'm trying to hide myself
Like smokers in airplanes

Like kids on the streets who just want to sing

La la la la lalalala
