

# Estranjero - Give Me To The Road

Tom: G

My heart wants freedom  
 Go where nobody knows me  
 Start a white page, where  
 Each place has potential to be  
 A different tale  
 A childhood feeling of playing  
 With masks and fantasy  
 Everything is unknown  
 A little adventure everyday  
 Look my smile

Chorus:  
 The world is a big house  
 Where i can live quietly

The universe lies in my eyes  
 And the infinite in my heart  
 Passagem: ( C G D )  
 I feel the freedom in my veins  
 And the windy blowing my hair  
 This new place is charming  
 That i cant even explain right now  
 I'm high baby  
 I want to know everything  
 All these wonders of the nature  
 See the eyes of the unknown  
 And find new magic hours  
 The time stops
