

Evanescence - Orestes

Tom: E

Dbm **B** **A**
 Metaphor for a missing moment
 pull me into your perfect circle
 One womb, one shape, one resolve liberate this will and
 release us all

Dbm **B** **A**
 Gotta cut away, clear away, slip away
 And sever this umbilical residue that's keeping me from
 killing you
 And from pulling you down with me, here I can almost hear

you scream

Dbm **B** **A**
 Give me one more medicated peaceful moment
 one more medicated peaceful moment
 Because I don't want to feel this overwhelming hostility
 because I don't want to feel this overwhelming hostility

Dbm **B** **A**
 Gotta cut away, clear away, slip away
 And sever this umbilical residue
 Gotta cut away, clear away, slip away
 And sever this umbilical residue that's keeping me from
 killing you
 keeping me from killing you (2x)

Acordes
