tom:

Intro: Em D Bm C  
Em D Bm C

Em D Bm C  
I leave this note by your side  
Em D Bm C  
I did the same thing every night

C  
Through years I've tried  
G D Em  
Inside are words for you to find  
C  
To let you know

G D Em  
About the things I never dared to show  
C  
Or say out loud

Dbm B A  
And I know it's late  
Gbm Dbm  
Tears from sorrow now fall in hate  
A Gbm  
Too late to change

Em D Bm C  
I undress my guilt by your side  
C Em  
And maybe I can bury it tonight  
D Bm  
Along with memories of things I've done to you

C  
That will never come undone  
Em D Bm  
Can't stop my world from burning down

C  
These flames are all my fault  
Em D  
When the ashes fall from heaven  
Bm C  
They fall as my confession

Dm C  
All the words that I leave offer reasons  
Dm Bb  
Holds the keys to the doors that I've locked  
F Am  
And I knew they would never be opened  
Dm C Dm  
Cause the ashes fall from heaven  
Bb F C  
Cause the ashes fall from heaven

Em D G  
I cease my shame here by your side  
C Em  
And maybe it will vanish with the lies  
D Bm  
Along with memories of things I've done to you  
C  
Things that cannot be undone

Em D Bm C  
Can't help myself from falling off  
C  
This thirst is all I've got
