

The Everly Brothers - Don't Forget To Cry

Tom: G Goodbye baby don't forget to cry

You always said you'd shed a million teardrops
 If we should part if ever we should part
 But now you're gonna leave me high and dr---y

You said your tears would build a brand new river
 If we were through if ever we were through
 But now somebody new has caught your e?y-e
 Goodbye baby don't forget to cry
