

# The Everly Brothers - Living Too Close To The Ground

Tom: C

Listen and hear each word stop  
 Or you'll miss the birds  
 They sing in the top of the trees  
 Sometimes when you look you can't see  
 But up there you will know that it's round  
 You're living too close to the ground

Come where the lights are brand new  
 Leave now without a plan  
 You can get away if you choose  
 Confess it you've nothing to lose  
 And I can show you where it's found  
 You're living too close to the ground

You're living too close to the ground  
 Rush so you'll pass it by  
 Don't let it catch your eye  
 Don't stop you might look a fool  
 Standing with love in your eyes  
 Trying hard to believe what you've found  
 You're living too close to the ground

I once held her close to me  
 Listened and heard her breathe  
 Just like I have done all my life  
 Her heart was the image of mine  
 Ah but my wings just couldn't be found  
 I was living too close to the ground
