Everyone You Know - She Don't Dance

```
                           tom:
                  Bm
            Em                          G
Bm
I used to know this girl, she used to dance? she used to live
in my
                  Bm
Mind and play in my heart
        Em                   G              Bm
I used to know this girl? she used to move? she used to tell
me a
                  Bm
Lie, then show me the proof

           Em           G
But she don't dance no more
        Bm           Bm
She don't dance no more
             Em         G
No she don't dance no more;
        Bm            Bm
Said she don't dance no more

             Em   G
So I don't either
        Bm       Bm
So I don't either
          Em      G   Bm
So I don't either

              Em                   G              Bm
I used to know this girl, she used to rave? she used to pick
me up,
                  Bm
And then put me back in my place
        Em                   G              Bm
I used to know this girl, she was electric? but she don't
dance no
                  Bm
More, I need to accept it

Em                                     G
She used to dance to the break of dawn, play the song, man
it's wrong, it won't
             Bm
Bm
Take you long, raving non stop baby til the day has gone,
maybe I'm the one that messed up
Em                                     G
```

```
She used to dance til the morning come, more then one rum,
drinking
                            Bm
Til the dawn is done, pouring some more liquor til we're
yawning but
Bm
I'm thinking I'm just tryna get love

              Em           G
But she don't dance no more
        Bm           Bm
She don't dance no more
             Em         G
No she don't dance no more;
             Bm           Bm
Said she don't dance no more
   Em                       G                     Bm
I used to know this girl, she used to dance? she used to live
in my
                  Bm
Mind and play in my heart
             Em                   G              Bm
I used to know this girl? she used to move? she used to tell
me a
                  Bm
Lie, then show me the proof
Em                                     G
She used to dance til the sun was up, one to love, loved her,
we were young and
                  Bm
Bm
Drunk and dumb, done with this ship, it sunk I'm numb and now
I'll just try forget her
Em                                     G
She used to dance til the morning come, more then one rum,
drinking
                            Bm
Til the dawn is done, pouring some more liquor til we're
yawning but
Bm
I'm thinking I'm just tryna get love

              Em           G
But she don't dance no more
        Bm           Bm
She don't dance no more
             Em         G
No she don't dance no more;
             Bm           Bm
Said she don't dance no more
```
